MANUFACTURING EXCELLENCE THROUGH SOFTWARE

PAPER-LESS MES/MV2

5.4.6 RELEASE INFORMATION

Paper-Less MES/MV2	2
5.4.6 Release Information	2
Purpose	3
New Features & Enhancements	3
Defects/Repairs/Bug Fixes	4

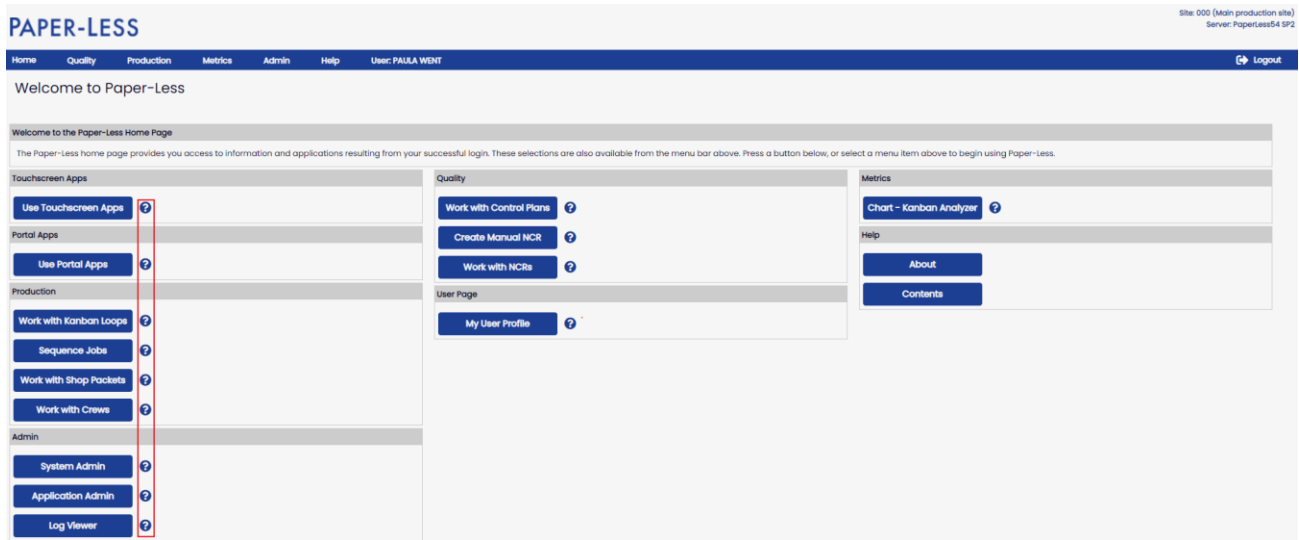

PURPOSE

The purpose of this document is to outline the major enhancements and change requests made to the latest Paper-Less release. Prior to performing any upgrades, please review the Paper-Less Hardware and Software Requirements documentation to ensure your system meets the latest recommended requirements. If you have any questions, please contact the Paper-Less Help Desk at: help.desk@paperlessllc.com or 888-473-0800.

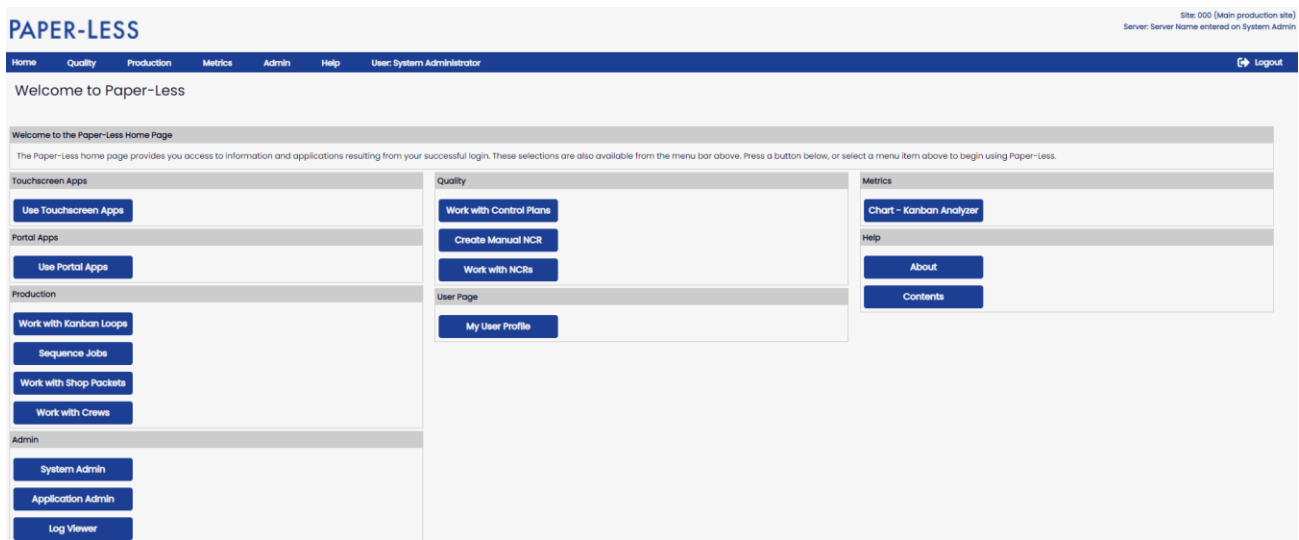

NEW FEATURES & ENHANCEMENTS

- Added Chart-Kanban Analyzer help to the Metrics Help group within Help-Contents.
- Updated the appearance of the Classic Landing page by removing the "?" help icons next to each button, since they all exist in Help Contents.

Before:

After:

- Made performance improvements to BulkLoad Stored Procedure for ManufactureOrderHeaderNote, for processing during sync between XA and MES.

DEFECTS/REPAIRS/BUG FIXES

- Fixed an issue where the downtime duration value in WIP and Dashboard was displaying the incorrect value when viewing it from a site in a different time zone.
- Fixed an issue where the user was not properly prompted for credentials when navigating to a different instance of MV2, when navigating from a previous instance.
- Fixed an issue when running a bulk load sync, where duplicate cell records were not being logged as duplicate, and ItemMasterSiteWarehouse records with multiple errors were not logging each error.
- Updated our installed databases and objects to not be dependent on the host SQL Server instance's collation.
- Fixed an issue where the "Reference" field and "Stock Unit of Measure" field were displayed in the list of Input Field Settings for Physical Inventory when they shouldn't have been listed.
- Removed the Terms of Use button which was not linked to anything.
